

Formulary Drug List - OKLAHOMA

3/14/2012

The attached Formulary includes symbols representing pharmaceutical acquisition costs.

Products which are typically dispensed as individual, solid, oral dosage forms are priced per unit (e.g. capsules, tablets).

Products which are not solid, oral dosage forms and are dispensed as one counted unit will be priced as such (e.g. one tube of cream, one individual injection or vial, one inhaler, one oral liquid bottle).

Products which are typically dispensed as packages are priced per package (e.g. oral contraceptives, manufactured kits, multi-syringe or vial packs).

If you have any questions regarding pharmaceutical pricing, please contact PharmaCorr for clarification.

Medications listed in this document are categorized by drug class and the relative cost is indicated with representative \$ signs. The cost grouping is based on the unit cost of the medication -- unit cost is the cost of one tablet/capsule/bottle/vial/tube/canister:
